

## Anthemion Blue

Deliberately opulent, unashamedly extravagant, Anthemion Blue celebrates 250 years of Wedgwood's allegiance to art and fine fashion.

Showcasing the Company's exquisite craftsmanship during its landmark anniversary, the collection shimmers as its rich cobalt blue background contrasts with lavish gold and delicate neo-classical iconography to create the ultimate extravagance for the table.

Using a classic new series of shapes which mark the Wedgwood anniversary, the range includes plates and dishes featuring decorative borders detailed with traditional colonnades and classic laurel. Others sparkle with delicate gilded Anthemion palmettes, and Terpsichore, the Greek Muse, features in all her glory on other pieces.

The iconic Wedgwood tableware pattern for 2009, Anthemion Blue is aimed directly at lovers of luxury, providing an open invitation to all to re-discover English craftsmanship at its finest.
