

Intaglio

Urban chic and elegance are the essence of the new Intaglio collection from Wedgwood.

Crisp, clean and contemporary, yet drawing its design inspiration from the decoration of the Georgian era, the fresh white honours connoisseurs of shape and form.

Using decorative techniques that are uniquely Wedgwood, Intaglio pays homage to the Company's core traditional skills of knurling and engine turning the arts of indenting designs in wet clay to give a distinctive tactile finish. Intaglio also includes a G Greek Key motif intermingling with laurel detailing, both a hallmark of Wedgwood, to provide even more interest and sophistication

The designs vary across the different pieces adding interest and architectural grace to the table.

Featuring new shapes to celebrate the Company's 250th anniversary in 2009, Intaglio creates a new look for the table for modern consumers seeking a timeless pattern for smart formal dining.
