

JASPER CONRAN

AT

WEDGWOOD

Embroidered

Embroidered by Jasper Conran is a striking new pattern depicting the designers influences from the realms of fashion and textiles.

The contemporary lines of the iconic Jasper Conran shape have been boldly decorated with a platinum pattern inspired by the art of 18th century embroiderers. Curling ribbons of flora and fauna represent stitching and embellishment, an exquisite union of shape and decoration that provides a dramatic visual.

Embroidered both enhances and complements the award winning Jasper Conran at Wedgwood portfolio. With its confident flourish this collection will appeal to the consumer who enjoys dressing the table. Alternatively, it also works perfectly as a statement accent to the established and highly successful Platinum Collection.
